Keeping you up and running

The Service Brand of MAN Diesel & Turbo

**MAN** | PrimeServ

## **MAN PrimeServ – Baton Rouge**

### Keeping You Up & Running

When your equipment goes down, you need a team that can help you fix it quickly and effectively. That's why we offer custom Pulp and Paper solutions that meet your needs, whether you're looking for repairs and rebuilds or complete manufacturing.

For more than 30 years, Baton Rouge Machine Works (MAN PrimeServ) has provided the Pulp and Paper industry with expert service and custom manufacturing. This experience and expertise allows us to keep you up and running, no matter the problem. Baton Rouge Machine Works is proud to have been part of MAN Diesel & Turbo since 2008, with its custom solutions fitting perfectly with PrimeServ's focus on worldwide superior service.

# Pulp & Paper Capabilities

## Getting you back on line

### Pulp & Paper Service

When your equipment goes down, we know you need to have it up and running again quickly. We provide you with fast and reliable service that's tailor-made to meet your needs. Our equipment upgrades and quick turnaround time will keep you up and running at optimal efficiency

### Rolls

We have a wide range of service capabilities for rolls, including shaft replacements, straightening, refinishing surfaces, dynamic balancing, and repairs of bearing housings and drive couplings.

### Refiners

Complete equipment overhauls and upgrades can help your Sprout Walden, Jones, Beloit and Andritz refiners operate more efficiently.

### Rotating Equipment

Whether it's a minor repair or a complete overhaul, we offer custom solutions and re-designs for everything from vacuum blowers and steam turbines to pumps and washer drums.

### Journals

Our expert service team can do everything from small repairs to complete replacements of bearing journals.

### **Manufacturing Capabilities**

Some problems require a more custom solution. Our manufacturing capabilities and rebuilds allow us to build a solution from the ground up. These capabilities, coupled with our expert service, will get you back on the line with the best materials and tools possible.

### **Paper Rolls**

Here in Baton Rouge, we've manufactured rolls for mills throughout the country. We offer complete reverse engineering and manufacturing of replacement rolls for a variety of applications.

### **Refiner Components**

We're experienced in expert the manufacturing of a wide range of refiner components, including shafts, bearing housings, refiner rotors, and floating heads.

### **Washer Drums**

Our highly skilled workshop team uses state-of-the-art equipment to rebuild and manufacture washer drums, reducing stress on welded components and extending bearing life.

### **Screws**

We help keep your equipment together by reverse engineering and manufacturing a variety of replacement screws, including re-pulper screws, wood chip screws, and screw conveyors.

At MAN Diesel & Turbo North America, we understand that business success is underpinned by safety and quality. To improve our systems, we continually engage both internal and external experts. We hold ourselves accountable to internationally accepted best practices. Safety and quality tops our company's values.

# Service & Manufacturing

## The Right Solution Where You Need It
